linkedin.com/in/isaaclinsdotcom

Started as a developer, moved into security, kept both. I build applications and AI tools, and I build them with security in mind from the start.

1st **IT Skills Battle 2025, Cybersecurity** · National competition

EXPERIENCE

Aug 2026 – now	**Blue Team Security Analyst** · Internal Security In-house blue team: threat detection and incident response for Swisscom itself.	Swisscom AG
Oct 2025 – Aug 2026	**Blue Team Security Analyst** · Threat Detection & Response Triage and incident response for 50+ customer tenants: SIEM, EDR, NDR, XDR, SOAR.	Swisscom AG
Jan 2024 – Oct 2025	**Application Developer** Enterprise apps. Migrated 40+ machines from RHEL 7 to 9 and 2M+ entry databases.	Swisscom AG
Aug 2023 – Jan 2024	**Red Team Internal Hacking Presenter** Built live hacking demos (phishing, RATs, botnets) for government and enterprise.	Swisscom AG
Jun 2023 – Aug 2023	**Automation Engineer** Automated IT workflows with UiPath Studio to cut manual work.	Swisscom AG
Nov 2022 – May 2023	**Backend Developer** Backend for a music app: Java APIs, MySQL, PI planning.	Swisscom AG

PROJECTS

since Sep 2026	**Stewie** An AI agent with its own Mac mini. It runs my servers, keeps its own notes and searches every past session; I send it outcomes from my phone. Claude, Codex, T3 Code, macOS isaaclins.com/blog/hi-im-stewie-isaacs-ai-agent
Oct 2026	**Rental Law Navigator** · 3rd place, Hack-Nation 7, Zurich hub US rental law for any address. Every answer quotes its source word for word, with an as-of date and the changes ahead. Python, LLMs, US Census geocoder github.com/isaaclins/rental-law-navigator
Aug 2026	**FreeSnitch** Open-source macOS application firewall: per-app rules, connection alerts, a live traffic map, DNS over HTTPS. Signed and notarized 1.0 release. Swift, SwiftUI, Network Extension, XPC github.com/isaaclins/freesnitch
Aug 2026	**pi-vault** Lets a coding agent use a secret it never sees: you approve, the key goes from the macOS keychain into the command and is redacted from the output. TypeScript, macOS Keychain github.com/isaaclins/pi-vault

SKILLS

Programming	Python, TypeScript, Swift, Java, SQL, Bash
Frameworks	SwiftUI, Next.js, React Native, Flutter, Spring Boot
